

# QUALITY AND ENVIRONMENTAL MANAGEMENT SYSTEM

## QUALITY AND ENVIRONMENTAL POLICY

Watts Water Industries UK operates the following systems:

- Quality Management System in accordance with ISO9001:2015
- Environmental Management System in accordance with ISO14001:2015

The company ensures that resources are available to ensure compliance with both the Quality and Environmental Management Systems and to satisfy all applicable legal and regulatory requirements. This includes ensuring protection of the internal and external environment by preventing pollution and maintaining robust environmental systems which minimise waste.

The Management are committed to continually improving the Quality and Environmental Systems to enhance performance. It will do this through setting objectives and monitoring the results. Objectives are in line with the companies Mission and Vision statements which are outlined below:

### Mission Statement

- To improve comfort, safety, and quality of life for people around the world through our expertise in a wide range of water technologies.
- To be the best in the eyes of our associates, customers, and shareholders

### Vision Statement

- To be the global leader in providing innovative, high-quality products, systems, and solutions for the conveyance, conservation, control, and safe use of water through a focus on customers, innovation, and continuous improvement

This Quality and Environmental Policy is available to all employees on the shared drive and on relevant notice boards. This policy is available to external interested parties on request.
