iDROSET Series CF

Balancing devices for water distribution systems

STATIC BALANCING VALVES

iDROSET Series CF

iDROSET Series CF is our brand-new static balancing and control valve with free nut connection from DN15 to DN50 for heating, cooling and domestic water distribution systems. Featuring new patented technology that allows instant setting and reading of the flow rate without special tools. The valve body is manufactured from brass and composite with an ergonomic shape that allows the valve to be deployed in a range of ways. A multi-functional hand wheel sets the flow rate. It has a nominal pressure of 16 Bar. Operating temperature range from -10°C to 110°C. Balancing turn down ratio 25:1. Fluids: water with glycol up to 50%.

Part Number	DN	Valve body	Flow	Kvs	Q.ty/Box	Box/Carton	€/Unit
213112DYN	15	Without tapping points	0,030-0,150	0,9	1	1	100.70
213134DYN	20	Without tapping points	0,062-0,311	1,86	1	1	106.00
213112DYN-P	15	With tapping points	0,030-0,150	0,9	1	1	110.20
213134DYN-P	20	With tapping points	0,062-0,311	1,86	1	1	116.70
